1. Identification

Product identifier

**Ultrafuse® 17-4 PH metal filament**

Recommended use: 3D Printing

Details of the supplier of the safety data sheet

Company:
BASF 3D Printing Solutions B.V.
Eerste Bokslootweg 17
7821 AT Emmen, Netherlands

Telephone: + 31 591 820 389
E-mail address: sales@basf-3dps.com

Emergency telephone number

International emergency number:
Telephone: +49 180 2273-112

2. Hazards Identification

Classification of the substance or mixture

According to UN GHS criteria

Aquatic Chronic 3

For the classifications not written out in full in this section the full text can be found in section 16.

Label elements
Globally Harmonized System (GHS)

Hazard Statement:
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements (Prevention):
P273 Avoid release to the environment.

Precautionary Statements (Disposal):
P501 Dispose of contents and container to hazardous or special waste collection point.

Labeling of special preparations (GHS):
May produce an allergic reaction. Contains: Nickel, Cobalt

Other hazards

According to UN GHS criteria

If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

Upon thermal and/or chemical treatment the product can release hazardous substances.

Upon mechanical treatment like e.g. cutting, grinding and/or polishing the product can release hazardous substances.

Fine dust produced by abrasion can form explosive mixtures with air.

3. Composition/Information on Ingredients

Substances
Not applicable

Mixtures

Chemical nature
polymer blend based on: Alloy, metal powder encapsulated, in a polymer matrix

Hazardous ingredients (GHS)
According to UN GHS criteria

Nickel

<table>
<thead>
<tr>
<th>Content (W/W): &gt;= 3 % - &lt; 5 %</th>

### Cobalt

- **Content (W/W):** > 0 % - < 0,1 %
- **CAS Number:** 7440-48-4
- **EC-Number:** 231-158-0

- **Acute Tox. 4 (oral)**
- **Resp. Sens. 1**
- **Skin Sens. 1**
- **Carc. 1B (by inhalation)**
- **Muta. 2**
- **Repr. 1B (fertility)**
- **Aquatic Chronic 4**
- **Repr. 2 (unborn child)**
- **H302, H334, H317, H341, H350, H360, H413**

### Ethylenebis(oxyethylene) bis[3-[(5-tert-butyl-4-hydroxy-m-tolyl)propionate]

- **Content (W/W):** > 0 % - < 0,1 %
- **CAS Number:** 36443-68-2
- **EC-Number:** 253-039-2

- **Aquatic Chronic 1**
- **M-factor chronic: 10**
- **H410**

For the classifications not written out in full in this section the full text can be found in section 16.

### 4. First-Aid Measures

**Description of first aid measures**

Remove contaminated clothing.

If inhaled:
Remove the affected individual into fresh air and keep the person calm. Assist in breathing if necessary. If symptoms persist, seek medical advice.

On skin contact:
Wash thoroughly with soap and water. Burns caused by molten material require hospital treatment. If irritation develops, seek medical attention.

On contact with eyes:
In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water. If irritation develops, seek medical attention.

On ingestion:
Rinse mouth and then drink 200-300 ml of water. Seek medical attention.

**Most important symptoms and effects, both acute and delayed**

Symptoms: (Further) symptoms and / or effects are not known so far

Hazards: No hazard is expected under intended use and appropriate handling.

**Indication of any immediate medical attention and special treatment needed**

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.
5. Fire-Fighting Measures

**Extinguishing media**
Suitable extinguishing media:
water spray, foam, dry powder, carbon dioxide

Additional information:
Water spray for suppression (heat dissipation) of incipient fires as long as the product has not yet ignited.

**Special hazards arising from the substance or mixture**

- Formaldehyde, carbon oxides
The substances/groups of substances mentioned can be released in case of fire.

**Advice for fire-fighters**

Special protective equipment:
Wear a self-contained breathing apparatus.

Further information:
The degree of risk is governed by the burning substance and the fire conditions. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental Release Measures

Avoid the formation and build-up of dust - danger of dust explosion. Dust in sufficient concentration can result in an explosive mixture in air. Handle to minimize dusting and eliminate open flame and other sources of ignition.

**Personal precautions, protective equipment and emergency procedures**
Handle in accordance with good industrial hygiene and safety practice. Avoid dust formation.

**Environmental precautions**
Discharge into the environment must be avoided.

**Methods and material for containment and cleaning up**

For small amounts: Sweep/shovel up.
For large amounts: Sweep/shovel up. Vacuum up spilled product.
Reclaim for processing if possible. Ensure adequate ventilation. Avoid raising dust.

7. Handling and Storage

**Precautions for safe handling**
Avoid inhalation of dusts/mists/vapours. Ensure adequate ventilation. Provide suitable exhaust ventilation at the drying process and in the area surrounding the melt outlet of processing machines.
Keep away from sources of ignition - No smoking. Take precautionary measures against static discharges. Avoid the formation and deposition of dust. Upon mechanical load the product can release sensitizing substances.

Further information is given in the user guidelines for the product.

Protection against fire and explosion:
The product is not an oxidizer, not self-ignitable and not explosive. Avoid dust formation. Accumulation of fine dust may entail the risk of a dust explosion in the presence of air.

**Conditions for safe storage, including any incompatibilities**

Segregate from acids.

Suitable materials for containers: High density polyethylene (HDPE), Low density polyethylene (LDPE), Paper/Fibreboard

Storage stability:
Protect against moisture.

**Specific end use(s)**

For the relevant identified use(s) listed in Section 1 the advice mentioned in this section 7 is to be observed.

Please refer to the technical leaflet for further information.

---

### 8. Exposure Controls/Personal Protection

#### Control parameters

**Components with occupational exposure limits**

- 7439-89-6: Iron
- 7440-02-0: Nickel
- 7440-47-3: Chromium
- 7440-48-4: Cobalt
- 7440-50-8: Copper

#### Exposure controls

**Personal protective equipment**

Respiratory protection:
Breathing protection if breathable aerosols/dust are formed. Wear respiratory protection if ventilation is inadequate. Particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 149, Type P2 or FFP2)

Hand protection:
Use additional heat protection gloves when handling hot molten masses (EN 407), e.g. of textile or leather.

Eye protection:
Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:
Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical-protection suit (according to EN 14605 in case of splashes or EN ISO 13982 in case of dust).
General safety and hygiene measures
Wearing of closed work clothing is recommended. Ensure adequate ventilation. No eating, drinking, smoking or tobacco use at the place of work. Store work clothing separately. Hands and/or face should be washed before breaks and at the end of the shift.

9. Physical and Chemical Properties
Information on basic physical and chemical properties

<td>No decomposition if stored and handled as prescribed/indicated. Prolonged thermal loading can result in products of degradation being given off.</td>
</tr>
</tbody>
</table>
Viscosity, dynamic: not applicable
Viscosity, kinematic: not applicable, the product is a solid
Explosion hazard: Product is not explosive, however a dust explosion could result from an air / dust mixture.
Fire promoting properties: not fire-propagating

Other information
Self heating ability: It is not a substance capable of spontaneous heating.
Radioactivity: not radioactive for transport purposes
Bulk density: not determined
Hygroscopy: Non-hygroscopic
Other Information: If necessary, information on other physical and chemical parameters is indicated in this section.

10. Stability and Reactivity

Reactivity
No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals: No corrosive effect on metal.
Reactions with water/air:
- Reaction with: air
  - Flammable gases: no
  - Toxic gases: no
  - Corrosive gases: no
  - Smoke or fog: no
  - Peroxides: no
- Reaction with: water
  - Flammable gases: no
  - Toxic gases: no
  - Corrosive gases: no
  - Smoke or fog: no
  - Peroxides: no
 Formation of flammable gases: Remarks: Forms no flammable gases in the presence of water.

Chemical stability
The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions
Strong exothermic reaction with acids. May decompose violently.
The product is stable if stored and handled as prescribed/indicated.
Conditions to avoid
Avoid all sources of ignition: heat, sparks, open flame. Avoid dust formation.

Incompatible materials
Substances to avoid:
oxidizing agents, inorganic acids, plastics containing halogenated flame retardants

Hazardous decomposition products
Possible thermal decomposition products:
| Formaldehyde, Carbon monoxide
| At prolonged and/or strong thermal stressing above the decomposition temperature dangerous decomposition products can be formed.

11. Toxicological Information

Information on toxicological effects

Acute toxicity
Assessment of acute toxicity:
Based on available data, the classification criteria are not met. Contact with molten product may cause thermal burns.

| Information on: Cobalt
Assessment of acute toxicity:
Of moderate toxicity after single ingestion. The inhalation of dusts represents a severe acute hazard.
Virtually nontoxic after a single skin contact.

Irritation
Assessment of irritating effects:
May cause mechanical irritation.

Respiratory/Skin sensitization
Assessment of sensitization:
Based on available data, the classification criteria are not met. Study not necessary due to exposure considerations.

| Information on: Cobalt
Assessment of sensitization:
May cause sensitization by inhalation. May cause sensitization by skin contact.

Information on: Nickel
Assessment of sensitization:
Sensitization after skin contact possible.

Germ cell mutagenicity
Assessment of mutagenicity:
Based on available data, the classification criteria are not met.

Carcinogenicity

Assessment of carcinogenicity:
Based on available data, the classification criteria are not met. Study not necessary due to exposure considerations.

Information on: Nickel
Assessment of carcinogenicity:
The results of various animal studies gave no indication of a carcinogenic effect. IARC (International Agency for Research on Cancer) has classified this substance as group 2B (The agent is possibly carcinogenic to humans).

Information on: Cobalt
Assessment of carcinogenicity:
In long-term studies in rats and mice in which the substance was given by inhalation, a carcinogenic effect was observed. IARC (International Agency for Research on Cancer) has classified this substance as group 2B (The agent is possibly carcinogenic to humans).

Reproductive toxicity

Assessment of reproduction toxicity:
Based on available data, the classification criteria are not met.

Information on: Cobalt
Assessment of reproduction toxicity:
The results of animal studies suggest a fertility impairing effect.

Developmental toxicity

Assessment of teratogenicity:
Based on available data, the classification criteria are not met.

Information on: Cobalt
Assessment of teratogenicity:
Indications of possible developmental toxicity/teratogenicity were seen in animal studies. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Specific target organ toxicity (single exposure)

Remarks: Based on available data, the classification criteria are not met.

Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

Assessment of repeated dose toxicity:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Information on: Nickel
Assessment of repeated dose toxicity:
The substance may cause damage to the lung after repeated inhalation.

Aspiration hazard
not applicable

Other relevant toxicity information
The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

12. Ecological Information
Toxicity
Assessment of aquatic toxicity:
Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Ethylenebis(oxyethylene) bis[3-(5-tert-butyl-4-hydroxy-m-tolyl)propionate]
Assessment of aquatic toxicity:
There is a high probability that the product is not acutely harmful to aquatic organisms. The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

Persistence and degradability
Assessment biodegradation and elimination (H2O):
The product is not very soluble in water and can thus be removed from water mechanically in suitable effluent treatment plants.

Bioaccumulative potential
Bioaccumulation potential:
The product has not been tested. Because of the product’s consistency and low water solubility, bioavailability is improbable.

Mobility in soil
Assessment transport between environmental compartments:
Adsorption in soil: Adsorption to solid soil phase is possible.

Other adverse effects
The product does not contain substances that are listed in Regulation (EC) 1005/2009 on substances that deplete the ozone layer.

Additional information
Add. remarks environm. fate & pathway:
The product has not been tested. The statements on environmental fate and pathway have been derived from the properties of the individual components.

Other ecotoxicological advice:
The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

13. Disposal Considerations

Waste treatment methods
Dispose of in accordance with national, state and local regulations.

Contaminated packaging:
Dispose of in accordance with national, state and local regulations.

14. Transport Information

Land transport

ADR
Not classified as a dangerous good under transport regulations

UN number or ID number: Not applicable
UN proper shipping name: Not applicable
Transport hazard class(es): Not applicable
Packing group: Not applicable
Environmental hazards: Not applicable
Special precautions for user: None known

RID
Not classified as a dangerous good under transport regulations

UN number or ID number: Not applicable
UN proper shipping name: Not applicable
Transport hazard class(es): Not applicable
Packing group: Not applicable
Environmental hazards: Not applicable
Special precautions for user: None known

Inland waterway transport

ADN
Not classified as a dangerous good under transport regulations

UN number or ID number: Not applicable
UN proper shipping name: Not applicable
Transport hazard class(es): Not applicable
Packing group: Not applicable
Safety data sheet according to UN GHS 4th rev.
