Hi Christina,

I received the following information from our supplier:  
Base polymer of G-Polymer is new substance and the information you required are below.  
License# : T-111065  
Certification holder : Mitsubishi Chemical Corporation  
Approved qty : 100t/y  
Approved usage : Food packaging materials and polymerization emulsifiers or dispersants  
Activity type : import  
Registration Type : simplified notification (PLC)

In addition, all other components are non-new substances.

I hope this is what they are looking for!

Groetjes / Best regards,

**Sharon Westenbrink-Woldering**

**Onderwerp:** [ID 598] Clarification on BI 959791, Ultrafuse BVOH - GSQ for China

Dear Sharon,

the Chinese colleagues need additional information for the GSQ for Ultrafuse BVOH.

"We would like to seek your clarification on BI 959791, Ultrafuse BVOH. In the midst of performing regulatory evaluation of BI 959791 under Chinese Local regulations, our colleagues found the GSQ for this product. However, there information declared on the GSQ is insufficient for them to proceed with the required evaluation. Under the SoR section for China, it has been declared as "all components are listed or simply notified". If the product has substances which are "simply notified", then further information is required from the supplier.

China	All components are listed on IECSC <a href="http://www.mep.gov.cn/gkml/hbb/bgg/201301/t20130131_245810.htm...">http://www.mep.gov.cn/gkml/hbb/bgg/201301/t20130131_245810.htm...</a>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	All components are listed or simplified notification
-------	---	--------------------------	-------------------------------------	--

If non-new substance, the GSQ should be "yes".

If new substance is notified already, below information is required.

- License#
- Certification holder
- Approved qty
- Approved usage
- Activity type
- Registration Type"

Could you please ask the supplier for the missing information?

Thanks and kind regards!

Mit freundlichen Grüßen / Kind regards
