# Starter 1: Choose from our Lattice Catalogue

1. Find your application in our Lattice Catalogue
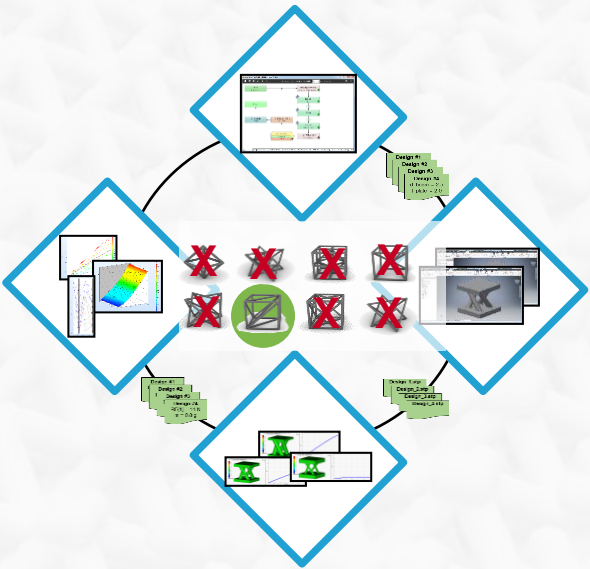

You choose one application resembling your product and provide us your STEP/STL file.

+

STL or any closed mesh (.stl, .obj)

2. We generate the lattice design

We generate a mesh (.stl) to fill the lattice into your part.

3. You receive the digital lattice design

An .stl with the lattice design of your part is sent to you for validation and printing.
